Dear Mr. Helms:

The time is rapidly approaching for certain policy decisions with respect to EROS (Earth Resources Observation Satellite) a project of this Department.

In this context, I would like to have my Science Adviser, Dr. Donald D. Dunlop, granted the necessary clearances in order that he might acquaint himself with the state of the art as far as sensor technology is concerned. This is necessary in order that Dr. Dunlop may adequately advise me with respect to the Department's position in this question. Dr. Dunlop has a Top Secret clearance.

Your cooperation will be very much appreciated.

Sincerely,

Secretary of the Interior
